Dear Members of ANDAMOS,

On behalf of all of us at ASAE, we would like to congratulate you on launching ANDAMOS, the Society of Association Executives in Mexico. We are very pleased that you are coming together to launch this new Society which will give you an opportunity to learn from each other and increase the effectiveness of associations in Mexico.

Successful associations can have a positive effect on a society by increasing its competitiveness, improving the quality of life, and helping to ensure a positive future. We are sorry that we are not with you for this important launch, but we support your work and hope to be able to be with you on a future occasion.

As you continue your work, we invite you to share your experiences with us. We look forward to learning from you on your successful practices in association management. ASAE has members from more than 50 countries around the world, which provides a good community for exchange of information and practice. We look forward to your participation in this community.

Please consider our website, www.asaecenter.org, a resource to you moving forward.

Guillermo Dillon Montaña has been an ASAE member for many years and serves on the ASAE International Section Council. We will stay in touch with him and look forward to your many accomplishments.

With best regards,
